

Come along and explore virtual reality, robotics, wearable technology, 3D design and printing, drone technology, scratch coding and lots of other things!

MAKERSPACE:

New to the Maker Space this month

Try your hand at **Drone technology**

The number of new students coming to MAKE IT MONDAY has been amazing. We are having lots of fun and learning great new skills together.

3:30pm to 5pm on Mondays in the Makerspace

COSMOS

DID YOU KNOW:

The Library has many magazines on a broad range of interest areas.

Cosmos is a leading literary science magazine, published in Australia but with a global reach. It makes the world of science accessible to everyone.

- The hopes of new cures from 'gene therapy 2.0' CRISPR
- Lessons from Mars – our picture of the Red Planet has never been clearer
- A profile of climate advocate Ross Garnaut
- Why is the sea salty?

OTHER NEW MAGAZINES:

WINDOW ON THE COSMIC DAWN

AUSTRALIA'S GREAT WAR 1917

The German planes patrolled in hunting squads. They flew fast fighting craft streaking across the sky in tight formation. The greatest of them was the Red Baron, the deadliest ace on the Front. Hed shot down twenty-one of our planes in a single month. And now we were in his firing line. The war in France rages in the skies, and support for the war in Australia turns cold. Alex flies high above the trenches of the Western Front, while a world away his sister Maggie finds herself in the midst of political upheaval. Somehow, both must find the courage to fight on.
